Model: GWS-C101 Table Top (Hot & Cold Water)

Product Specification: Volt./ Hz: 220-240V/50-60Hz Power Consumption: Cooling System: 100W Heating System: 450W Compressor: 1/15HP Compressor Heating capacity: 7 liters per hour Chilling capacity: 8 liters per hour Tank Capacity: Cold Tank (L): 3.6 ^e, Hot Tank (L): 1.6 ^e Cooling: Temperature Control: Thermostat, Cooling System: Forced Cooling System Heating: Temperature Control: Thermostat Heater Type: Sheath Type / Band Type , Overheat Protector: Auto Bi-metal Weight: 11kg Dimensions(mm): 310(W)X360(D)X520(H)

Model: GWS-C200S Table Top (Hot & Cold Water)

Product Specification: Volt./ Hz: 220V~/50Hz Power Consumption: Cooling System: 120W Heating System: 480W Compressor: 1/15HP Hermetic Compressor Length of Power Cord: 1.8 M Tank Capacity: Cold Tank (L)3.5 & , Hot Tank (L)1.6 & Cooling: Temperature Control: Thermostat, Condensing Type: Natural Convection Heating: Temperature Control: Bi-metal, Heater Type: Sheath Type / Band Type **Overheat Protector: Auto Bi-metal** Weight: 16kg Dimensions(mm): 300(W)X380(D)X520(H)

Model: GWS-295C Wall Mounted Water Cooler (Hot & Cold Water)

Product Specification:
Voltage: 220V-240V / AC 50Hz
Power: Heating 800W | Cooling 205W
Stainless steel water storage tank
Water Supply: Cold 8 Liters / Hour
Power Consumption: 1.0KW / H
Refrigeration Pour: R134a / 200G
Working Ambient: 10 -38°C
Dimension : 430mm (width) x 300mm (depth) x 520mm (height)
Unit height with swan-neck outlet 730mm

Model: GWS-297C Wall Mounted Water Cooler (Cold Water)

Product Specification:
Voltage: 220V-240V / AC 50Hz
Cooling Power: 205W
Stainless steel water storage tank
Cool Water Supply: 8 Liter / Hour
Power Consumption: 1.0KW.H/24H
Refrigeration Pour: R134a/200G
Working Ambient: 10 -38°C
100% Stainless Steel
Dimension : 430mm (width) x 300mm (depth) x 520mm (height)

Model: GWS-15L Water Boiler (Wall Mounted) (Hot Water)

Product Specification:

Product Features : Major Thermostats : EGO (German Brand)
Backup Thermostats : WAKO (Japanese Brand)
Hot Water Tank Insulation foam, UL approved
Safety Design
1. Double Protection with 2 Thermostats

2. Safety faucet body : Anti-scalded material

3. Safety faucet design: Avoid Child scalded by hot water

Product Specification : Type: Boiled Hot Water

Tank Capacity : Hot 15L

Watt : Hot: 2000W

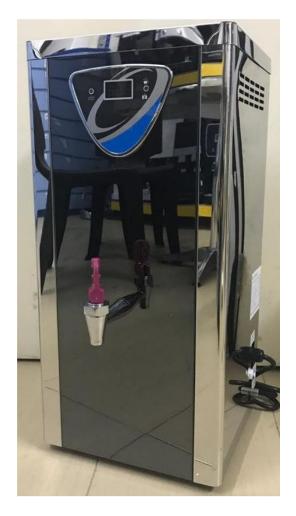

Water connection : Tap Water

Power: 220V

Dimension : 335mm(width) x355mm(depth) x635mm(height)

Model: GWS-26L (Wall Mounted) (Hot & Normal Water)

Product Specification:

Product Features : Major Thermostats : EGO (German Brand)

Backup Thermostats : WAKO (Japanese Brand)

Hot Water Tank Insulation foam, UL approved

Safety Design

- 1. Double Protection with 2 Thermostats
- 2. Safety faucet body : Anti-scalded material
- 3. Safety faucet design: Avoid Child scalded by hot water

Product Specification : Type: Boiled Hot Water & Normal Water

Tank Capacity : Hot 26L

: Normal Unlimited

Watt : Hot: 2000W

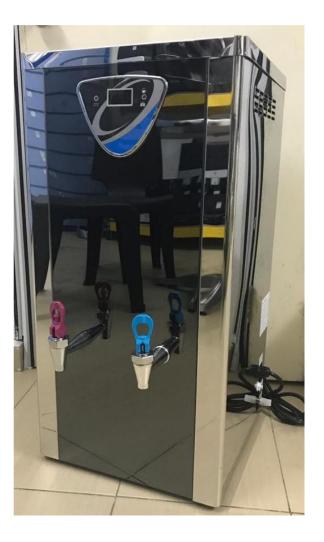

Water connection : Tap Water

Power: 220V

Dimension : 400mm(width) x450mm(depth) x740mm(height) Filtration System : Filtration system is optional and hang-out

Model: GWS-15L5I-C (Wall Mounted) (Hot & Cold Water)

Product Specification: Product Features : Major Thermostats Backup Thermostats Hot Water Tank Insulation foam, UL approved Safety Design 1. Double Protection with 2 Thermostats 2. Safety faucet body : Anti-scalded material 3. Safety faucet design: Avoid Child scalded by hot water Product Specification : Type: Hot & Cold Stainless Steel Water Dispenser Tank Capacity : Hot 15L/hour ; Cold 5L/hour Watt : Hot 1200W/2400W ; Cold 200W Water connection : Tap Water Power: 220V, Weight: 26Kg Refrigerant: R-134a. Dimension : 480mm(width) x410mm(depth) x620mm(height) Filtration System : Filtration system is optional and hang-out

Model: GWS-20L8I (Wall Mounted) (Hot & Cold Water)

Product Specification: Product Features : Major Thermostats Backup Thermostats Hot Water Tank Insulation foam, UL approved Safety Design 1. Double Protection with 2 Thermostats 2. Safety faucet body : Anti-scalded material 3. Safety faucet design: Avoid Child scalded by hot water Product Specification : Type: Hot & Cold Stainless Steel Water Dispenser Tank Capacity : Hot 20L ; Cold 8L Watt : Hot 3600W ; Cold 200W Water connection : Tap Water Power : 220V, Weight: 26Kg Compressor: LG Dimension : 590mm(width) x420mm(depth) x720mm(height) Filtration System : Filtration system is optional and hang-out

Model: GWS-2101 Table Top (Hot & Cold Water)

Product Specification: Volt./ Hz: 220-240V~/50-60Hz Power Consumption: Cooling System: 100W Heating System: 450W Compressor: 1/15HP Daewoo Korea Compressor Heating capacity: 20 liters per hour. Chilling capacity: 25 liters per hour. Tank Capacity: Cold Tank (L)5.5 & , Hot Tank (L)2 & Cooling: Temperature Control: Thermostat Cooling System: Forced Cooling System Heating: Temperature Control: Thermostat, Heater Type: Sheath Type / Band Type **Overheat Protector: Auto Bi-metal** Weight: 20kg Dimensions(mm): 340(W)X375(D)X620(H)

Model: GWS-780T Table Top (Hot, Warm & Cold Water)

Product Specification:

Product Features:

Drain Container Collects water drips into the container With indication float which rises up when container is full.

Push button control panel , LED-lighting on dispensing place.
Safety lock for hot water.
Product Specification: Heating capacity up to 10 liters per hour.
Chilling capacity: 12L / hour, chilled water under 10 degree C.
Capacity: Hot 2.5L , Cold 3L , Normal 4L
Consumed power: Hot 600W / Cold 210W
Dimension: 260mm (width) x 445mm (depth) x 580mm (height)

Model: GWS-PTS3001 Table Top (Hot, Normal & Cold Water)

Product Specification:

Product Features: Double secure prevents from overheat or dry-heat. (by sensor and thermostat).

Double secure against water overflow. (by floating valve).

Automatic control for purified water refill.

Each hot and chilled water has its own individual stainless steel tank.

One Touch Sensor Screen

Hot water with safety device.

One output for three temperature water

Color: Black Silver

Heating capacity: 20L / hour.

Hot water temperature can be assigned (at 82C, 85C, or 90C).

Chilling capacity: 25L / hour, chilled water under 10 degree C.

Chilling system by compressor with 1/15HP LG Korea Compressor

Capacity of each tank: Cold tank: 4.5 Liters / Hot tank: 1.6 Liters Weight: 20 KG

Dimension: 300mm (width) x 400mm (depth) x 530mm (height)

Model: LC-CHP-100 Table Top (Hot, Normal & Cold Water)

Product Specification: Standard Power Voltage: AC220V, 60Hz Power Consumption: Cold Water (1.2kW) Hot Water (2.5kW) Filter: All-in-One(Sediment + Carbon Block + UF) Volume: 120/1,500ml Temperatures: 7, 9, 11, 45, 70, 90°C Method: Cold Water: Thermoelectric Semiconductor Hot Water: Metal Heater Weight: 6.4kg Dimension: (W)130mm x (L)390mm x (H)320mm

Model: GWS-C520T Table Top (Hot & Cold Water) Touch Free System

Product Specification:

Product Features : Double secure prevents from overheat or dry-heat.

(by sensor and thermostat).

Automatic control for purified water refill.

Each hot and chilled water has its own individual tank..

Hot water with safety device.

Touch Free System

How it works: Hover your glass or bottle in front of the infrared

sensor panel and watch it dispense all on its own. No pushing or pressing required.

Color: White with Black

Heating capacity : 5L / hour.

Hot water temperature around (82C~90C).

Weight : T/T :18 KG

Dimension: T/T :335mm (Width) x 390mm (Depth) x 560mm (Height)

Model: GWS-TK-WD-S8DC Wall Mounted

Product Specification: Volt/hz: 220V / AC 50HZ Hot Water Capacity & Ability: 20L/H (.90c) Rated Power Hot: 2100W Environment Temperature: 5-38 Function – Water Volume: 180ml – 999ml (adjustable) Water Temperature: 15c – 100c Power Consumption: ≤ 0.6 kw – h/24h Incoming Water Pressure Requirement: 0.1 – 0.4 mpa Gross Weight: 3.4kg Dimension (mm): 300(W) x 118(D) x 400(H)

Model: GWS-C880 Table Top (Hot & Cold Water)

Product Specification:

Product Features :

Temperature Digital Displays Screen Double secure prevents from overheat or dry-heat.

(by sensor and thermostat).

Double secure against water overflow. (by floating valve).

Automatic control for purified water refill.

Each hot and chilled water has its own individual tank..

Heating capacity: 8L / hour.

Hot water temperature can be assigned (at 82C, 85C, or 90C).

Chilling capacity: 10L / hour

Cold water Temperature : under 10 degree C.

Chilling system by compressor with 1/15HP Compressor

Capacity of each tank: Cold tank: 3.5 Liters / Hot tank: 1.6 Liters

Weight: 18 KG

Dimension: 255mm (Width) x 500mm (Depth) x 545mm (Height)

Model: GWS-C680T Table Top (Hot, Normal & Cold Water)

Product Specification: Volt./ Hz: 220-240V/50-60Hz Power Consumption: Cooling System: 100W Heating System: 450W Compressor: 1/15HP Compressor Heating capacity: 8 liters per hour Chiling capacity: 10 liters per hour Tank Capacity: Cold Tank (L)3.0 & , Hot Tank (L)1.5 & Cooling: Temperature Control: Thermostat, Cooling System: Forced Cooling System Heating: Temperature Control: Thermostar , Heater Type: Sheath Type / Band Type **Overheat Protector: Auto Bi-metal** Weight: 17kg Dimensions (mm):225(W)X500(D)X545(H)

Model: GWS-C360 Table Top (Hot, Normal & Cold Water)

Product Specification:

Product Features: Double secure prevents from overheat or dry-heat.

(by sensor and thermostat).

Double secure against water overflow.

Each hot and chilled water has its own individual tank.

Hot water tap with safety device

Water Tap : Three temperature water output

Product Specification : Heating capacity: 12L / hour.

Hot water temperature can be assigned (at 82C, 85C, or 90C).

Chilling capacity: 9L / hour, chilled water under 10 degree C.

Chilling system by compressor with R-134a refrigerant.

Capacity of each tank: Cold tank: 2.8 Liters / Hot tank: 1.5 Liters Dimension: 355mm (width) x 312mm (depth) x 490mm (height) Weight: 17kg
